

## VIRTUAL COCKTAIL MASTERCLASS KITS

Our virtual masterclass kits provide each guest with an introduction to mixology. Designed to give each participant the confidence to embark on their own cocktail journey, the session is interactive, fun and educational.

Each box includes;

- Spirits,
- Mixers,
- Garnish
- Basic cocktail equipment
- Informative cocktail themed deck including recipes and tips

This will be sent via courier, guaranteed next day delivery in insulated boxes with cool packs to keep ingredients fresh.

Please have a look through the cocktail menu and select 2 or 3 cocktails to be covered in the masterclass. The masterclass can be tailored to your requirements but we would recommend 2-3 cocktails. Mocktail versions for the non drinkers amongst your team are available but can only be 'virgin' alternatives to the cocktail in the masterclass.

The masterclass will be fun, activity based and teeming with industry insights and knowledge throughout. Our top mixologist has designed cards that will take you through the history of each cocktail in a step by step masterclass of how to produce the perfect drink.
